

New Feature CheckIT

How CheckIT works...

STEP 1

Enter your listing information, press submit (no change in the input process)

Enter New Listing

STEP 2 View your listing

Step 3 Press **CheckIT**

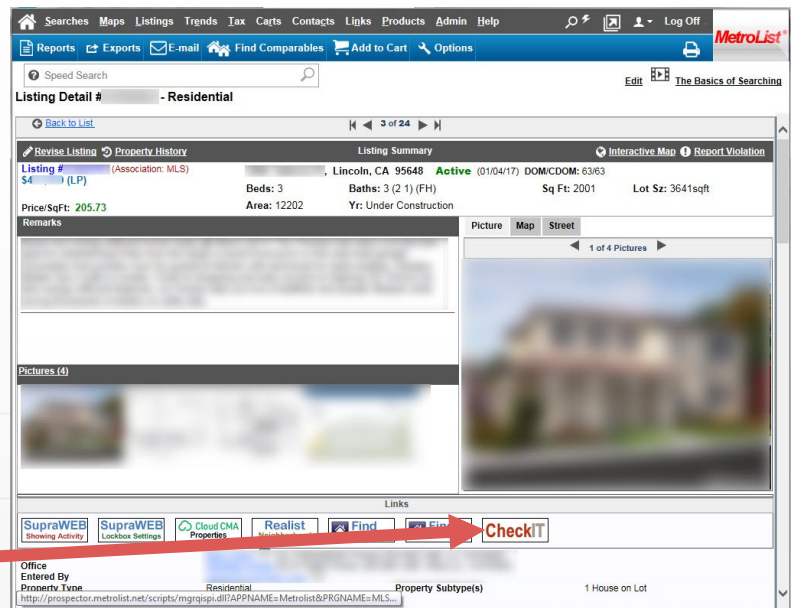

A **CheckIT** window will appear and potential discrepancies or violations in the listing data will be highlighted in **RED**. Review the highlighted items and make any necessary corrections to your listing in *Prospector*.

Repeat the process to check the listing again.

CheckIT compares submitted listing(s) against Realist and MLS Rules.

Listing(s) must be approved within Prospector for the new CheckIT feature to be available.

MetroList®
THE TRUE SOURCE

Retrieve your listing and press **CheckIT**

(CheckIT is accessible in the Property Detail Page located below the remarks section in your listing and in the Revise Listing Page)
